

Vera Storyboard

1

Voiceover

Your company's sensitive data and intellectual property are among your most valuable assets.

Visual

Building/office cutaway showing different departments that generate/house files.

2

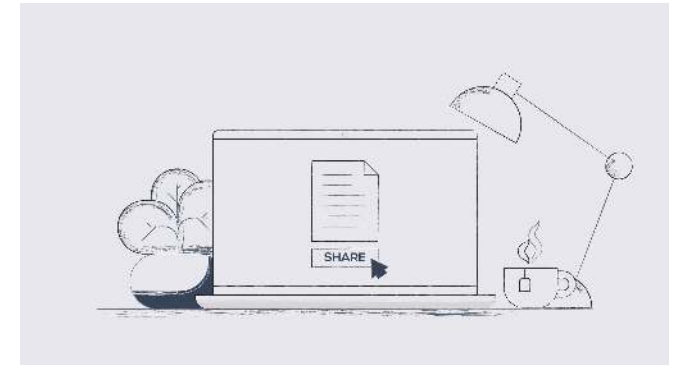

Voiceover

In our highly-connected, fast-paced global business environment, you're collaborating outside your company more than ever

Visual

Documents/files traveling back and forth across the globe from company to company.

3

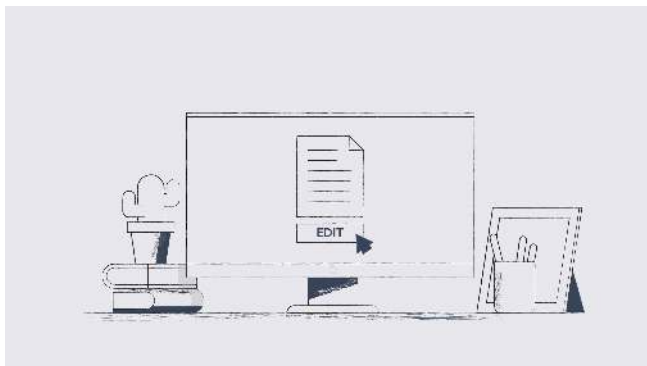

Voiceover

But the minute you email a file or share a link

Visual

In a laptop, we have an icon of File sharing Cursor then clicks on it.

4

Voiceover

you lose control of

Visual

After receiving one can click on edit, shown

5

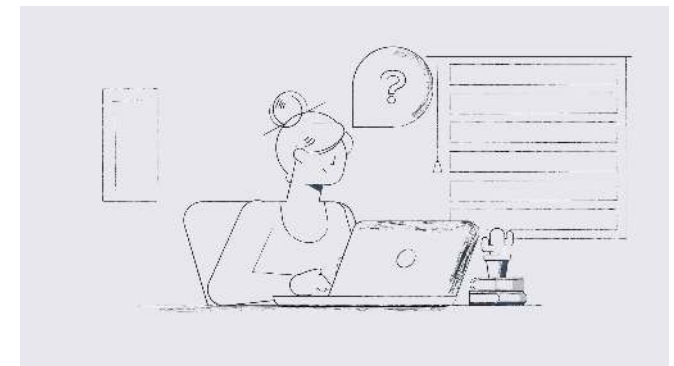

Voiceover

of how, when and where the data will be used.

Visual

Files moving to several locations and then a second file transfer with a ? on the file.

6

Voiceover

You need a way to maintain control, EVEN when it's in someone else's hands.

Visual

Woman working on laptop shown, a question mark appears above her (showing confusion).

7

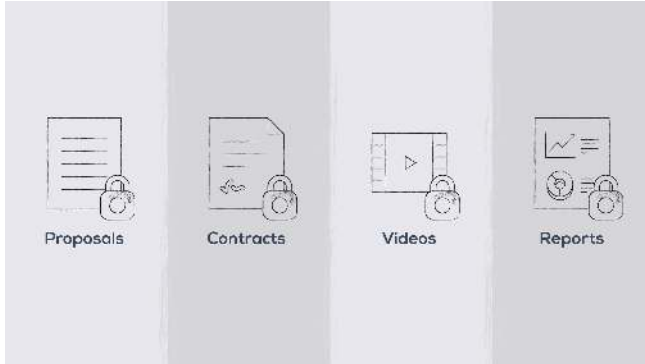

Voiceover

Meet Vera, Secure Anywhere File Encryption from Canon solutions America

Visual

Vera logo animation.

8

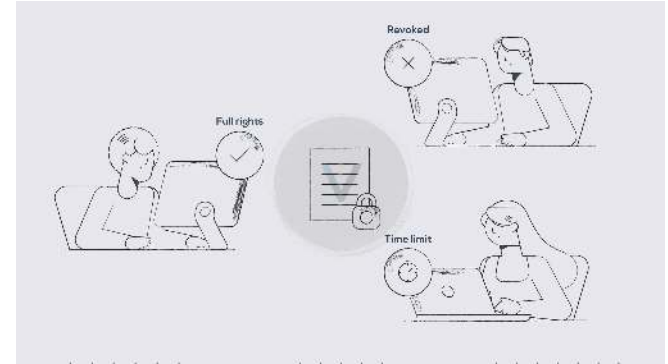

Voiceover

VERA secures any kind of data, anywhere it travels, granting variable access permissions for the same asset based on your defined security profiles.

Visual

All kinds of data files /formats shown by icon with lock

9

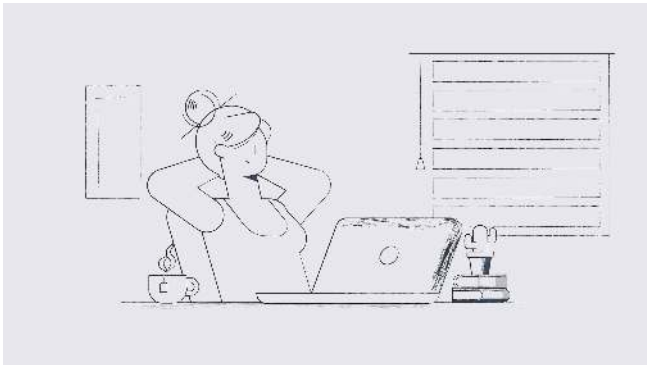

Voiceover

granting variable access permissions for the same asset based on your defined security profiles.

Visual

Allowing different permissions based on profiles shown

10

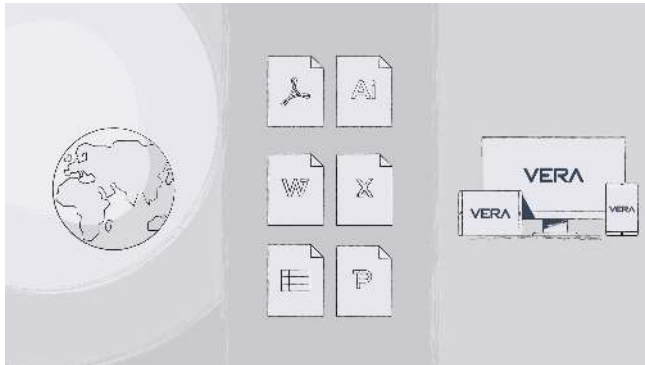

Voiceover

You can be confident knowing that only the right people can access your data, with only the permissions you deem appropriate.

Visual

The woman is confident with a relaxed posture.

11

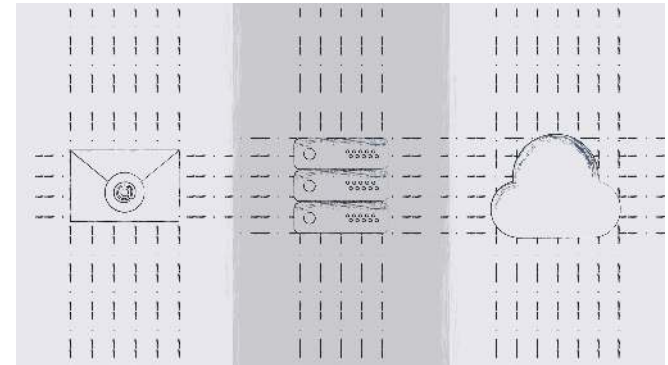

Voiceover

And VERA works anywhere, with any file format, originating from any platform.

Visual

Many locations, many file formats and and on devices shown by icons

12

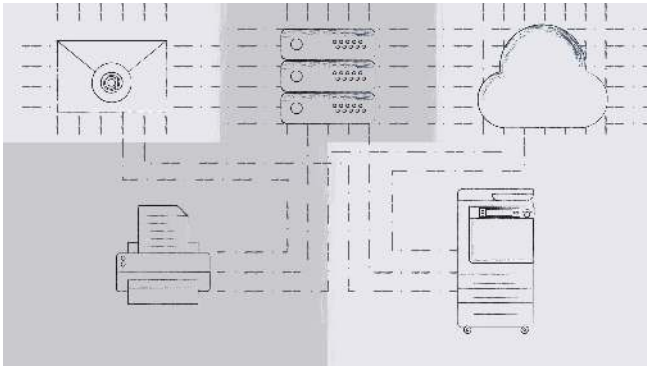

Voiceover

Whether it's emailed from a workstation, pulled from a content collaboration platform

Visual

Content moving from email, cloud, database etc.

13

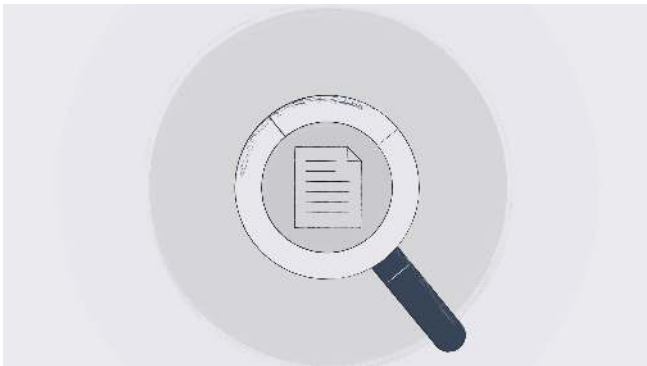

Voiceover

or scanned via office equipment such as a Canon Desktop Scanner or an imageRUNNER ADVANCE Multi-Functional Device.

Visual

a Canon Desktop Scanner and image RUNNER ADVANCE Multi-Functional Device shown sending files to various locations

16

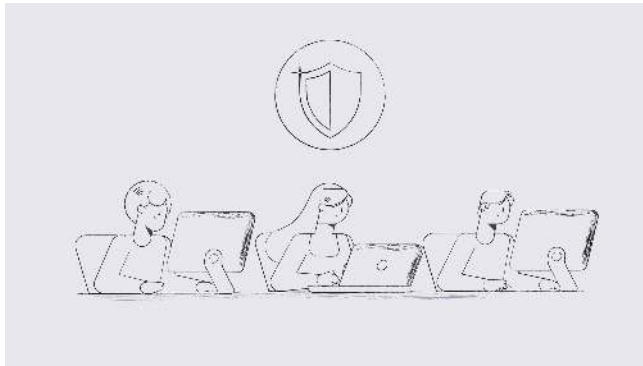

Voiceover

When data leaves your control, you'll never lose sight of where your file travels and how it's being used.

Visual

Showing files moving around the world and a zoom in on a file with the magnifying glass.

14

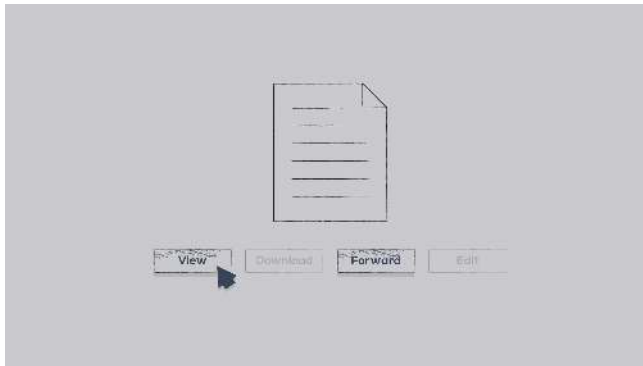

Voiceover

Your team can work on any project without changing their routine

Visual

Happy team working with secured content

17

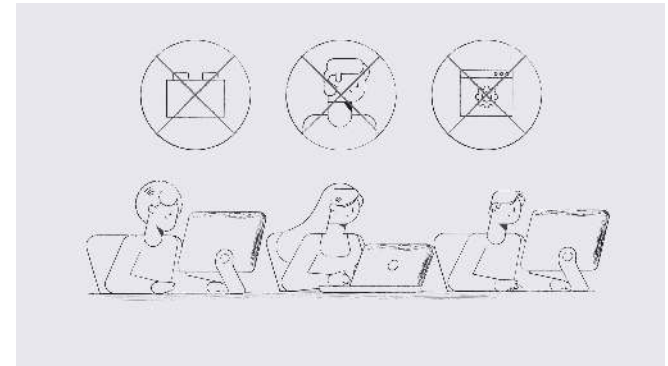

Voiceover

VERA lets you change what recipients can do with your data in real time.

Visual

Allows options for receiver for use, Darkened options for allow and faded options for deny

15

Voiceover

No plugins - no agent - no special software required.

Visual

Icons of all plugins, agent, software shown

18

Voiceover

Add watermarks, enforce time limits

Visual

File with watermark and one stopwatch for time restrictions shown.

19

Voiceover

and with predictive breach analytics, you'll know when something is wrong.

Visual

Computer screen with analytics and a red alert icon

20

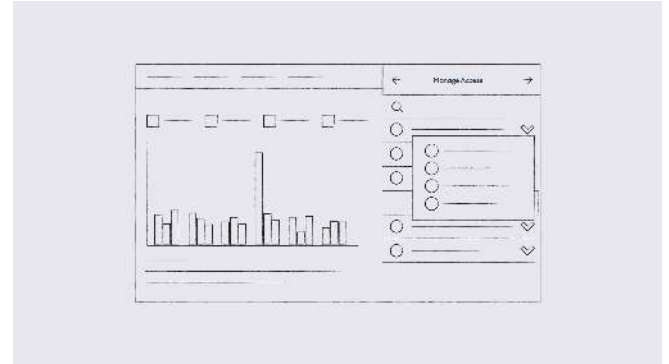

Voiceover

You can revoke access instantly even if the data has been downloaded or moved to a personal account

Visual

Continuation of previous

21

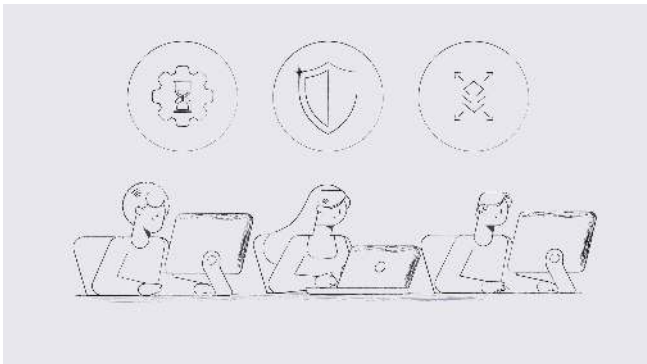

Voiceover

VERA gives you the tools you need to help reduce financial and legal liabilities and mitigate risk.

Visual

Permission tools for files are shown in box with circles

22

Voiceover

Best of all, it keeps your team working efficiently and securely with maximum flexibility.

Visual

Happy atmosphere of employees with icons shown

23

Voiceover

Your data will travel. Shouldn't your security?

Visual

Typography and Text animation
